Registrar to Registrar Transfer Agreement

This Registrar to Registrar Agreement (the "Agreement"), by and between _____ _____ Registrar and _____ Registrar, becomes effective on the date signed by the final party ("Effective Date").

A. *Whereas*, pursuant to [Section 2.10 of the Registrar License and Agreement] [Section 2.9 of the Registry-Registrar Agreement], entitled Transfer of Sponsorship of Registrations, _____ Registrar hereby agrees to implement transfers of SLD registrations from _____ Registrar and vice versa, pursuant to the Policy appended thereto as Exhibit B;

B. *Whereas*, under that Policy, the gaining Registrar shall obtain express authorization from the individual (as reflected in the WhoIs database of the losing Registrar) who has authority to bind the SLD holder;

C. *Whereas*, the gaining Registrar is required under the Policy to retain reliable evidence of that express authorization; and

D. *Whereas*, the losing Registrar will be provided a copy of that express authorization when requested;

Now, therefore, to expedite the transfer process, the parties agree as follows:

1. By agreeing to the reciprocal conditions herein, each Registrar agrees to automatic acknowledgement of all transfer requests from the other Registrar.

2. The agreed upon forms of express authorization between the parties are attached hereto as Attachments A.

3. The gaining Registrar must produce a completed Attachment A electronically or by facsimile within five (5) days of request by the losing Registrar, authenticated by a Notary Public or equivalent identity authentication (Attachment B hereto) acceptable to the losing Registrar.

4. If the gaining Registrar fails to produce a completed Attachment A within the five-day period, the gaining Registrar agrees to automatically acknowledge the retransfer request by the losing Registrar of the affected domain name registration.

5. In those instances where the Registrar of record is being changed simultaneously with a change of SLD holder or subsequent to that change, and the provisions of Paragraph 4 are being invoked, the gaining Registrar agrees to the retransfer without requiring any indemnification or other action from the losing Registrar.

6. Failure to comply with any paragraph of this Agreement is considered a material breach and results in the immediate rescission of this Agreement and the cessation of automatic acknowledgement of transfer requests.
